

Upcoming Works

Remobilisation of our piling contractor and associated plant and attachments will commence today with the piling rig arriving on Thursday morning 29th April from 9.30am via the Sudbourne Rd. access. The piling rig is expected to be on-site for circa 5 weeks.

The arrival of piling rig signifies the end of demolition phase of our works which hopefully will see a notable reduction in the noise and vibration levels attributed to demolition and concrete breaking activities experienced over the past number of months.

Community Engagement Manager

We are in the latter stages of the candidate vetting process and we are very hopeful to be able to confirm the position filled early next week. We look forward to introducing the new Community Engagement Manager.

Considerate Constructor Scheme

The site is registered with the Considerate Constructors scheme and we will abide by the code of practice to present a positive image for the construction industry.
